

OBJECTIVE

Design position in a creative and collaborative environment where 5 years of graphic and creative experience will contribute and add value to company and client online image.

EXPERIENCE

Senior Graphic Designer/3D Specialist (2003-Present), Eightfold LLC, Herndon, VA, working in a collaborative environment and directly with the client to consistently meet high-quality product requirements, such as:

Website Design

- Department of Defense Constitution Day online training course
 - Designing 2D and 3D site elements including photo composites, maps, illustrations and interface elements
 - Collaborating with other designers and client on both design and functionality
 - Site recognized as Webby Award Official Honoree
- Gibson Audio website
 - Creating 3D design elements, product illustrations and product animations
 - Producing elements for offline materials including animations for display in CES booth
- Collaborating with other designers on internal promotional marketing tools such as SafeRobot.com and 8FoldMedia.com
 - SafeRobot.com was winner of 5 local Addy Awards

AOL Expressions

- Buddy icons, emoticons, IM wallpapers, and other online assets
- Creating innovative Expressions (icons etc) in a high volume and short deadline environment
- Exceeding AOL quality expectations and producing over:
 - 500 buddy icons
 - 2000 Emoticons
 - And hundreds of additional Expressions assets
- Reconciling AOL and partner brand identities, conforming to style guidelines and quickly revising Expressions per client requests
- Expressions featured on AIM.com and AIMtoday.com front pages
- Expressions downloaded by millions of AOL and AIM users
- Consistently occupied most of the top 25 'most downloaded' positions in AOL's internal usage statistics

3D Visualizations

- Designing 3D technical illustrations and animations used in training DVDs for the International Training Institute for the Sheet Metal and Air Conditioning Industry
 - Worked closely with the client to ensure technical accuracy
- Incorporating 3D content along side traditional 2D content in a variety of projects, including:
 - Buddy icons
 - Web sites/Advertising banners, and
 - Trade show and client presentations

Graphic Designer/Computer Lab Assistant (2002-2003), George Washington University, Washington, DC, working closely with management and going above and beyond position duties to meet demanding requirements, to include:

- Designing new computer guidebooks from concept to final print production for staff
- Updating and maintaining Computer Lab Support Services Web and Intranet sites
- Completing daily reports, to include server statistics aggregation
- Performing Helpdesk Level I support and hardware installation for professors and students

PC Support Specialist/Trainer (1999-2001), Xtria, Washington, DC, providing technical assistance for users within the Administration for Children and Families and support with web and image issues, in addition to performing duties as the acting trainer for ACF's internal computer courses. Duties for support and training positions include:

- Installing, upgrading, and repairing PCs, printers and other hardware across the ACF network
- Teaching computer-related classes such as HTML, Dreamweaver, and basic software
- Scheduling classes, maintaining class rosters and coordinating registration
- Designing printed course materials
- Conducting a weekly walk-in Q&A workshop for web and HTML issues
- Maintaining training department's Intranet site
